

To get it clean:

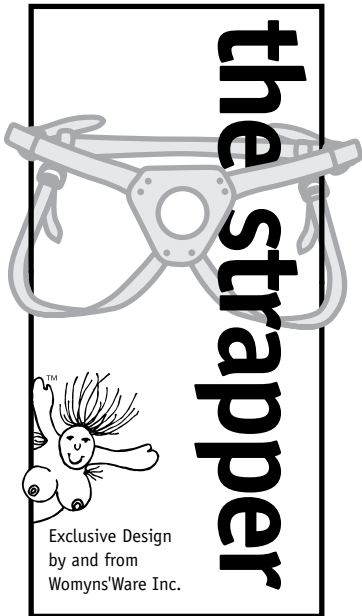

1. After each use, hand wash with a mild soap and water. Do not soak. Never machine wash leather!
2. Towel dry hardware to avoid rust (covering rivets with clear nail polish keeps water off), hang to dry.
3. Restore the leather's natural oils. We recommend Dayton™ OK Oil.

Do not use Dubin or Mink Oil, these are animal fats and can go rancid. Beware that wax based products will sit on the surface of the harness rather than be absorbed. The result? Wax on the genitals! Ick.

Where's it Made? Canada of course!

of Women's Sexuality™**

To get it on:

1. Step into The Strapper[®], insert the dill into the hole, and position on the pubic bone.
2. Tighten the waist belt, anchoring over the hip bone for secure hold.
3. Adjust "floating" leg straps around cheeks and tighten. (You may slide the leg straps together to create a G-String harness when using accessories.)
4. Use with vigorous enthusiasm.

The Strapper[®]

is covered by the Womyns'Ware Inc. 5 year warranty against manufacturer's defects. Return it to us with original receipt for repair or replacement.

To get it off:

Just loosen the waist belt and step out.
